METHODS

UX Design

Goal-Directed Design
Lean UX

EXPERIENCE

User Experience Design Intern at Incident IQ | January 2022 - May 2022

- Worked with the director of UX to organize, define, build and document design interface components that served as a model for a component library the development teams used in building features across IIQ's multiple applications.
- Attended and observed user sessions, wireframing / whiteboarding sessions that worked through customer problems with knowledge of current domain function / architecture and additional team ceremonies through an Agile iterative cycle.
- Gained advanced Figma organizational tooling skills, component documentation / spec / functional requirement knowledge, experience working on an Agile team.

Graphic Designer at Pour Up Atlanta | May 2018 - September 2021

- Utilized Adobe Illustrator to design marketing materials for PUA.
- Expanded on my graphic design skills, as well as gained exposure to a public audience.
- Made connections and received other freelance graphic design opportunities.

Graphic Design Student Assistant at University Systems of Georgia eCampus | September 2018 - May 2019

- Worked alongside a marketing team at the eCampus—online Georgia institution—that was located on my college campus.
- Utilized InDesign and Illustrator to create pamphlets, posters, stickers, Facebook posts, and other marketing materials.

EDUCATION

Kennesaw State University BS in Interaction Design | 2018 - May 2022
